1. Overview of the deliverable

According to the Art.35 of the *General Data Protection Regulation* 2016/679¹, this deliverable describes the evaluation of ethical risks related to the processing of the sensitive/personal data, collected during the project, including the prevention measures put in place in order to limit the risk. This information is reported in the attached *Data Protection Impact Assessment (DPIA)*; the document was compiled using a free software² provided by the CNIL³ ("Commission Nationale de l'Informatique et des Libertés"), the French Data Protection Authority. The DPIA has been validated by the Data Protection Officer (DPO) of the CNR (mail: rpdpd@cnr.it).
